

PICKY PANDA PAPER FLOWER

Make your own paper flower!

There are two methods available— either trace the template shapes onto colored paper or print out the template and color it in yourself!

- Materials:**
- scissors
 - glue
 - colored paper or coloring materials (markers, colored pencils, paint, etc)

PICKY PANDA PAPER FLOWER

Directions:

1) Color the shapes.

2) Cut out the shapes.

3) Fold along the dotted lines so the colored side touch each other.

4) Take one of the folded stems and, while still folded, place glue on the white side.

5) Take another folded stem and place it on top of the previous stem with the glue.

6) Repeat so all three stems are connected.

7) Add some glue to the top of one of the stems, and place the bud on.

8) Flip to the next stem and then place glue on the folded, white side of the bud, and the top of the stem.

9) Place the next bud on top of the glued area. Repeat until the third bud is also glued together.

10) Finished! (This is a side view and top view.)

Note: You can also print the template or trace the shapes onto colored construction paper.
